OBJECTIVE

Computer Science and Engineering student with a strong interest in software engineering, data analysis, and problem-solving. Passionate about writing and creative expression alongside technical learning. Curious, disciplined, and eager to grow through continuous learning and practical experience.

EDUCATION

B.Sc. in Computer Science and Engineering [2023-2027]

Port City International University

GPA: [4.00/ 4.00]

Higher Secondary School Certificate [2020-2022]

Quaish Burischar Sheikh Mohammad City Corporation College

GPA: [5.00/ 5.00]

Secondary School Certificate [2018-2020]

Burischar High School

GPA: [4.72/ 5.00]

SKILLS

- Programming fundamentals: C, C++, Java, Python
- Data Analysis: Excel, SPSS, SQL
- Web development: HTML5, CSS3
- Other tools: MS Word, PowerPoint, Git, GitHub, VScode, Xampp
- Basics of Machine Learning
- **Soft skills:** Writing, Time management, Team coordination, Leadership.

PROJECTS

Employee Database Management System

Technologies: Node.js, React, MySQL

- Developed an employee management system with CRUD operations, search, and reporting features.
- Designed the database and implemented SQL queries with proper normalization.

Demo Project: Producing Energy Through Wind Turbines

Technologies: Circuit Design, Electrical Engineering

- Designed a prototype wind turbine system for generating electrical energy from wind.
- Applied concepts of renewable energy, energy conversion, and basic circuit design.

Virtual Lost and Found System

Technologies: PHP, HTML, CSS, JavaScript, MySQL, XAMPP

- Designed and developed a web-based system for reporting, searching, and managing lost and found items.
- Built the frontend, backend, database integration, and core system functionalities from scratch.

CVision – AI Powered Resume Screening Platform

Technologies: Python, Flask, MySQL, HTML, CSS, JavaScript, Bootstrap

- Designed and developed a full stack AI-powered resume screening and recruitment platform.
- Implemented authentication, applicant and recruiter modules, resume management, AI-based scoring, job matching, and application tracking.

ACHIEVEMENT

- Best Female Contestant, PCC Monthly Programming Contest.
- 1st Position, Data Analysis Contest, Port City International University (PCIU).
- Completed National Technical and Vocational Qualification Framework (NTVQF) Level-III.
